Experience

Apple, Specialist *King of Prussia, PA 2009 - Present*

Interacts with customers in order to find what computer solution would be best from them. and deliverent excellent customer service. Working in a fast-paced team setting.

Aurora Imaging Co., Web Developer Intern *Conshohocken, PA 2009 - 2010*

Created HTML and CSS pages from Illustrator designs, Developed PHP applications for company intranets, and improved site navigation systems for a client's web service.

America's Great Restaurants, Web Developer *Philadelphia, PA 2008 - 2009*

Created the front and back ends of www.americasgreatrestaurants.com. It included mocking up design in photoshop, coding it, and then adding a database to dynamically pull data onto the resulting template.

Sela, Media Director *Philadelphia, PA 2009*

For the release of their first EP, Sela wanted t-shirts, album art, and photos to accompany the album release. This project also included designing the album artwork as well as the t-shirts, and posters for upcoming events.

9th Street Italian Market, Front-end Developer *Philadelphia, PA 2009*

Worked with a team of designers and developers on this project to create this solution. A photoshop mock up was used from another team member to create a html skeleton, and then added css to it. PHP scripting was also needed to create a simple CMS for the client to add future content.

PSPCA, Sound Designer *Philadelphia, PA 2009*

Composed original music for a short promotional video that the PSPCA wanted to loop in their lobby, and stream on their website. In this project there was also assistance with the editing of the footage in final cut, and compressing the video for web delivery.

AbsolutelyBell, Web Developer *Philadelphia, PA 2008 - 2009*

Designed the design of the website using HTML and CSS, as well as creating a MySql Database to hold her projects, business cards, and ads to go into film directories.

Enchanted Expressions, Front-end Developer *Wilmington, DE 2007*

Enchanted Expressions is a small event planning business, need a small website that involved static HTML pages, CSS, and very little PHP.
